CORRESPONDENTS are requested to send early orders, thus giving me time to enter them in my books before I leave for New York. It is not an uncommon thing for me to have a greater number of orders than there are lots in the catalogue and many often arrive too late. Writing as I do, with difficulty, it is very desirable that those who wish to entrust their orders to me, should send them as early as possible, that they may receive proper attention. Address as below; but late orders may be sent to me at New York, care of the auctioneers.

The coin dealers of New York, Baltimore, Philadelphia and Lancaster, Pa., will also receive and faithfully execute bids that may be placed with them. As many inquiries are sent me asking for catalogues to complete files, I have prepared a printed list of those that can be supplied, neatly priced in ink, to the 105th inclusive, which will be sold at prices named. This list will be sent on application.

## CATALOGUE

### U. S. CENTS.

Mr. Charles Stetson, of Quincy, Mass., has long been known as an enthusiastic collector of American Cents; he will be readily recognized as a well known formidable buyer of these pieces, of which he only collects the choicest specimens, as will be attested by the uniformly fine condition of the following coins.

- <sup>11<sup>00</sup></sup>1 1793 Lettered edge, "One hundred for a dollar;" fraction  $\frac{1}{100}$ ; very fine, a beautiful cent, being but barely circulated, *thick die, extremely rare.*
- <sup>14<sup>75</sup></sup>2 1793 Lettered edge, barely circulated, planchet broad, trefoil under the head large; as fine as the last, beautiful surface and but the least particle circulated; *excessively rare.*
- <sup>29<sup>25</sup></sup>2a 1793 Thick die, barely circulated, quite equal to No. 2.
- 3 1793 Liberty cap, thick die; extremely fine, one of the very finest known, barely circulated, wreath on rev. well struck; a beautiful cent.
- <sup>37<sup>50</sup></sup>4 1793 Reverse has the abbreviated legend "Ameri.;" this cent is uncirculated and almost bright; it is the finest cent of this kind known, except that of Mr. Mickley's, which is a brilliant proof, and has sold several times for about \$175. The rarity of the Mickley cent is sufficiently indicated by its perfect proof condition, it being without a blemish or imperfection. This one is only second to the Mickley, by which alone it is surpassed. As collectors have been looking for this cent for about fifty years, that another perfect specimen should turn up is hardly to be expected.
- <sup>46<sup>00</sup></sup>4 1793 Reverse has the abbreviated legend "Ameri.;" this cent is uncirculated and almost bright; it is the finest cent of this kind known, except that of Mr. Mickley's, which is a brilliant proof, and has sold several times for about \$175. The rarity of the Mickley cent is sufficiently indicated by its perfect proof condition, it being without a blemish or imperfection. This one is only second to the Mickley, by which alone it is surpassed. As collectors have been looking for this cent for about fifty years, that another perfect specimen should turn up is hardly to be expected.
- <sup>15<sup>00</sup></sup>5 1794 Large planchet, lettered edge; uncirculated, *excessively fine and rare*, the surface nearly proof.

- 10<sup>00</sup> 6 1794 Extremely fine, barely touched by circulation, nearly in proof condition; one of the finest cents of this date known.
- 11<sup>00</sup> 7 1794 Extremely fine, in quality approaching a proof; large planchet, resembles a 1793; *excessively rare*.
- 10<sup>50</sup> 8 1794 Another beautiful cent, quite as fine as the last; *rare*.
- 27<sup>50</sup> 9 1794 Uncirculated, partly red, thick planchet, of the highest rarity. A cent of this rare type is hardly ever found in this condition.
- 21<sup>00</sup> 10 1795 Thick die, uncirculated, barely misses being a proof; "One cent" high up in the wreath; *of excessive rarity*.
- 25<sup>50</sup> 11 1795 "One cent" low down in the wreath; red and uncirculated, almost a proof and equal to the last; a gem coin.
- 52<sup>00</sup> 12 1795 Thick planchet, uncirculated, a perfect cent; *excessively rare*.
- 71<sup>00</sup> 13 1795 Thin planchet, nearly proof, and unexcelled. "One cent" high in the wreath; about equal to No. 10.
- 7<sup>50</sup> 14 1795 Thin planchet, "One cent" low in the wreath; an extremely fine piece.
- 10<sup>50</sup> 15 1796 Fillet head variety, with 'Liberty': fine but little circulated. This is one of the hoard brought home by Mr. Nichols to his daughters, he being a member of the old Continental Congress. These cents when recent were offered me for a trifle, and I was afterward glad to buy them for many dollars each; they have been for many years highly prized by collectors; *rare*.
- 8<sup>50</sup> 16 1796 Liberty cap, like the head of '93, rarer than the fillet head; extremely fine, barely circulated.
- 17<sup>00</sup> 16 1797 Uncirculated, brilliant, nearly red, scarcely less than proof; one of the famous hoard, and one of the best of the lot, scarcely one equal to this at present exists.
- 6<sup>00</sup> 18 1798 Almost red, barely touched by circulation; extremely fine and *rare*.
- 2<sup>00</sup> 19 1798 Of dark color, but an exceedingly fine cent.
- 35<sup>00</sup> 20 1799 This has every part perfectly distinct, the hair is untouched or nearly so, the bottom of the 9's are perfect, and the cent is as good a one as is known, being equal to the Abbey cent, and is without exception the finest that has been offered for many years; *excessively rare*.

- 2500 21 1799 The cheek only just blemished but hardly so; scarcely inferior to the last. Two cents like these offered can hardly at this day be produced in any American collection. The rarity of the 1799 cent is well known and can scarcely be over estimated. *Of the highest rarity.*
- 450 22 1800 Overstruck, almost without a blemish, a beautiful cent.
- 200 23 1800 Obverse slightly blemished, but a good cent.

## PATTERN COINS OF THE UNITED STATES.

Among the following will be found a number of *unique* or *excessively rare* PATTERN DOLLARS, struck in silver and copper, which have never before, and probably cannot again be offered at public auction. Several were once in the Mint Cabinet at Philadelphia, and were obtained in

legitimate exchange for rare coins of earlier issues, which the cabinet lacked; others, notably the unique set of Centennial Dollars, the 1877 Dollars, the 1879 and 1880 Metric and Goloid Dollars, though issued by the Philadelphia Mint, are not even found in the Mint Cabinet itself. It can indeed be safely predicted that a recurrence of the sale of such an extraordinary array of rarities and unique coins is not within the possibilities of a near or remote future. Collectors wishing to secure one or more of these gems for their collections, will therefore do well to scrutinize the following pages with care, to procure one of my PLATE CATALOGUES, No. 101, where many are illustrated, and to put themselves in immediate communication with their purchasing agents, or better still, attend the sale in person. To those who collect PATTERN COINS only in their true metal, Nos. 437, 438, 439, 440, 441, 442, 443, 445, 447, 448, 451, and 452 are particularly recommended. They are of original, artistic and striking designs, either unique or of excessive rarity, struck in silver or goloid, and in brilliant proof condition, uniting the four qualities most prized by our best collectors. Among the minor Patterns will be found the *excessively rare* 5-cent pieces with bust of Washington, *rare* III cents, a gold Ring Dollar, etc., etc. Amongst the Pattern Dollars marked as unique, it may be proper to say that each one of these dollars so marked is rarer than the U. S. Silver Dollar of 1804. The pattern 5-cent pieces are almost as rare as the dollars though not quite so.

- These Pattern Dollars, struck at the Philadelphia Mint under the authority of Congress, were intended to commemorate the first Centennial of American liberty and independence, but for some reason the design was abandoned, and they were never struck in silver.
